

Tropical Engine Coolant™ (MiT-Cool™)

Description:

- Engine Corrosion Coolant with Molybdate technology.
- Provides effective corrosion protection for all engine cooling system.
- Inhibits scale formation.
- Suitable for most metals.
- Environmentally Friendly.
- Extremely low toxicity compared to other traditional coolant
- Low depletion rates of scale and corrosion inhibitors under normal use.
- Meets phosphate-free requirements of European manufacturers.
- Meets silicate-free requirements of Japanese manufacturers.

Suitable for:

- ★ Passenger gasoline and diesel engine cars.
- ★ Heavy duty diesel engines (on road).
- ★ Construction plants & equipment
- ★ Small and medium generators (less than 1,000KVA)

Service Intervals:

- ◆ Passenger cars, light trucks/commercial vehicles - 60,000km or 2 years
- ◆ Heavy duty diesel engines (on road) -40,000km or 18 months
- ◆ Construction Plants & Equipments - 2,000 hours
- ◆ Small and medium generators (< 1,000 KVA) - 2,000 hours

Dosage:

- 1 to 5 parts of soft water.

Packing:

- 5-liter and 25 liter and 200-liter packing.
