

## Engine & Parts Degreaser™ (MiDeg™)

### Description:

- Cost effective degreaser in removing stubborn grease, dirt and oily hydrocarbon film
- Do not attack paint, rubber, vinyl or plastic surface.
- Provide a corrosion protection film on metal surfaces after washing
- Water based dispersant technology, non-toxic,
- Non flammable
- Do not cause skin irritation under normal use
- Biodegradable,

### Suitable for:

- ★ Engine Degreasing
- ★ Tools and Parts Degreasing

### Application for Engine Degreasing:

1. Spray some water on surface to be washed. (Cover all electrical and electronic parts)
2. Spray MiDeg over surface to be washed and let it react for 2-3 minutes. (Use a brush if necessary on thick greasy surface for effective cleaning contact)
3. Spray or hose surface with water to complete cleaning

process. (Hose dry with compressed air if necessary)

### Application for Parts and Tools Degreasing:

1. Pour sufficient quantity of MiDeg into a container
2. Place part and tools into the MiDeg solution
3. Introduce compressed air into MiDeg for faster and more effective degreasing.
4. Allow circulation for about 15 to 20 minutes\*.
5. Remove parts and tools.

*\*Allows multiple cleaning until MiDeg solution losses it's cleaning efficiency then replace with fresh MiDeg.*

*^Replace traditional cleaning with flammable liquids which are hazardous and can cause fire and explosion.*

### Dosage:

- 1 to 3 parts for Engine Degreasing
- 1 to 2 parts for Parts and Tools Degreasing

### Packing:

- 5-liter and 25 liter packing.
